CIM Level 3 Foundation Certificate in Marketing

About CIM

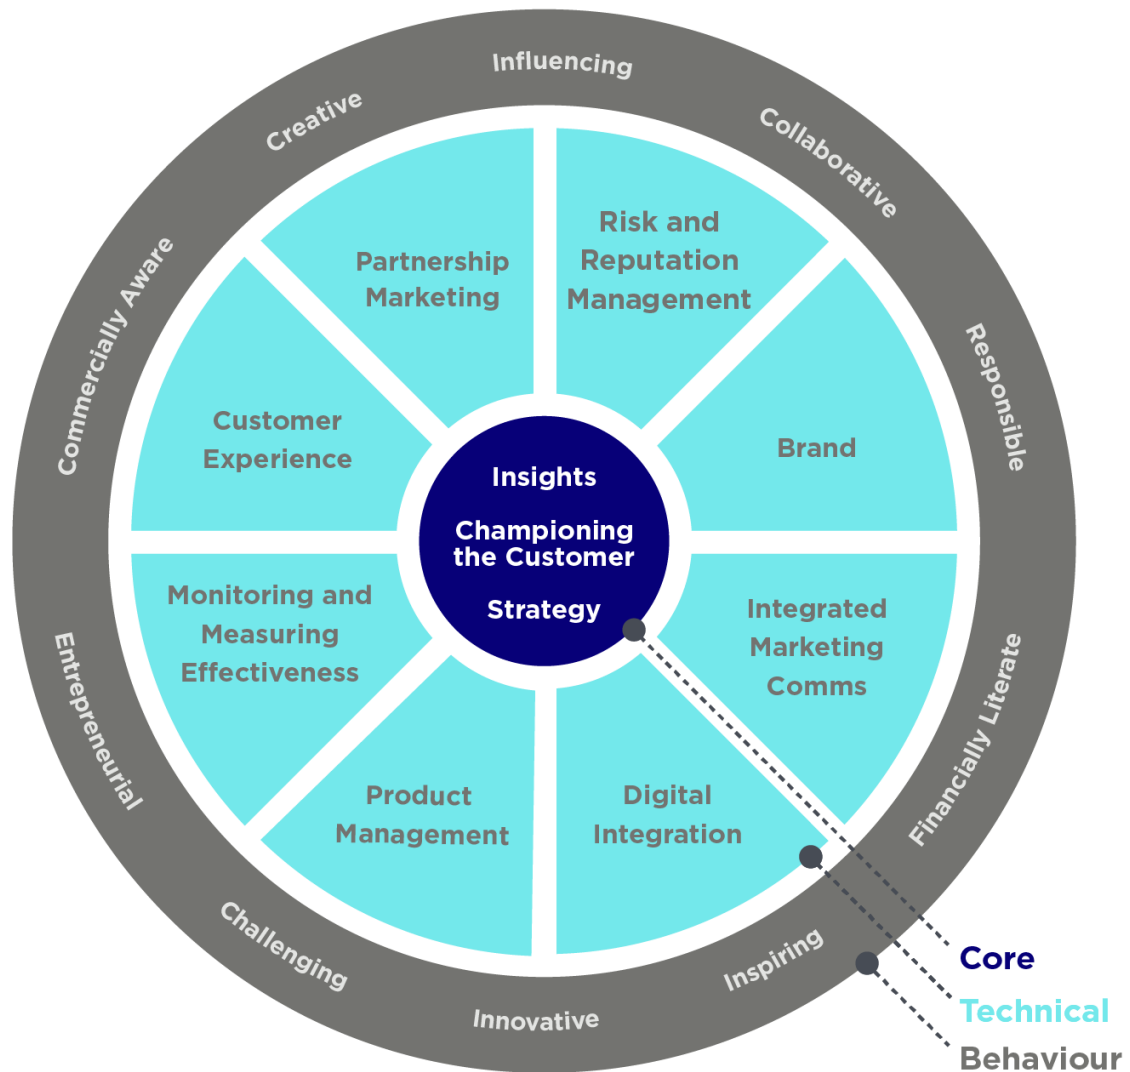

CIM (The Chartered Institute of Marketing) has been representing its members and the industry for over 100 years. A Royal Charter was granted by Her Majesty the Queen in 1989 and the governing principles remain as relevant today as when first set out by Royal Charter: "...to promote and develop the art and science of marketing and to encourage, advance and disseminate knowledge, education and practical training in and research into the art and science".

CIM strongly believes that high standards of quality and integrity are vital to the success of the marketing profession, so maintaining, developing and setting standards within the industry is a key part of CIM's work. The Professional Marketing Standards were developed and released in 2006 by CIM and have recently undergone further review following extensive research with employers and leading academics. The 2014 release of the Professional Marketing Competencies clearly show the competencies expected of marketing professionals at each stage of their career and are designed to guide both marketers and their employers to assess a level of proficiency and training needs.

As the world's largest organisation for professional marketers, CIM has a global reputation as a centre of excellence and its qualifications are recognised worldwide.

Professional Marketing Competencies

The Professional Marketing Competencies focus on three key competency areas: 'Core', 'Technical' and 'Behaviour'. The 'Behaviour' indicators reflect the demand for transferable skills and articulates a level of proficiency rather than seniority.
