

Module Specification:

Digital Fundamentals (VRQ)

Digital Fundamentals is a 12-credit module which sits within the suite of Level 3 modules.

To gain the CIM Level 3 Foundation Certificate in Professional Digital Marketing, a pass in Marketing Principles and Digital Fundamentals is required.

If studied as a standalone module, an individual award can be achieved.

Aim of the module

This module provides an introduction to the main aspects of digital marketing. On completion of the module, you will have an appreciation of the impact that digital technology has had on marketing activities and its effect on customers. You will have an understanding of the digital marketing tools available, how those tools can be used and how to develop digital marketing content. Finally, you will know how to develop digital communications campaigns and how the effectiveness of those campaigns can be measured.

Module structure

The module comprises three units with two learning outcomes each. Each learning outcome will be covered by the related assessment criteria and will be assessed by way of a portfolio/assignment. The assessment will require submission of a portfolio/assignment based on a theme and an organisation of choice.

The learning outcomes and assessment criteria, along with the indicative content, are detailed in the Digital Fundamentals module content which follows.
