Professional Marketing Competencies

The Professional Marketing Competencies focus on three key competency areas: 'Core', 'Technical' and 'Behaviour'. The 'Behaviour' indicators reflect the demand for transferable skills and articulates a level of proficiency rather than seniority.

Core

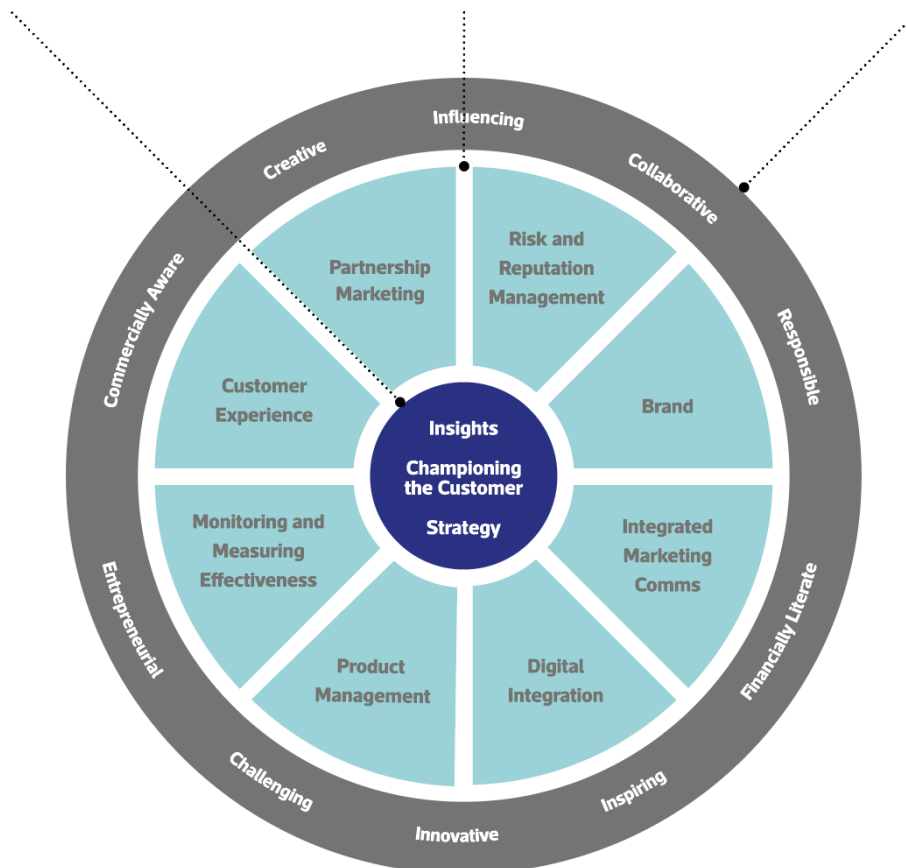

The core competencies sit at the heart of marketing and are relevant to all marketers regardless of their role, their industry sector or the stage that they have reached in their career.

Technical

The technical competencies are elective, flexible capabilities which identify the knowledge and skills required in specific areas of marketing, reflecting the variation in career progression available in this field.

Behaviours

These capabilities describe the behaviours that marketing professionals need to be able to demonstrate in order to do their jobs efficiently and effectively and contribute to the achievement of business goals.
